

THE DANGERS OF NONSTEROIDAL INFLAMMATORY DRUGS

1,000 capsules of Tylenol in a lifetime doubles the risk of end-stage renal disease. (New England Journal of Medicine, 1994)

NSAIDS (Nonsteroidal anti-inflammatory drugs) conservatively cause 16,500 Americans to bleed to death each year, making it the 15th most common cause of death in the US. (New England Journal of Medicine 1999)
